Car Removed from River July 5, 2018

Town Manager Michael "Mitch" Mitchell was on hand on Thursday, July 5, 2018 to observe the removal of the car that had been in the river since April 17, 2018, when a driver drove it into the water (she was rescued). Delayed due to high water and complicated removal by overhead means, the car was still there until conditions were finally right for removing it on Thursday, July 5, 2018 - around noon to about 1 pm. Mitchell had said at a recent Town meeting that they had hoped to have it removed as soon as possible, and before Homecoming.

"I know that the towing personnel did a skillful and calculated job of getting the vehicle to the first launch site and then swinging the vehicle around to get it on a tow vehicle," said Mitchell, although other details not yet available. Mitchell provided photos he took at the scene, and another Bristol resident who had been across the river at Congdon Park provided the photo view from there.
