This Week in Bristol Indiana - 9-20-2018

Work continues to connect S.R. 15 North to S.R. 15 South. The construction on the new alternate route for trucks and other vehicles began in August 2018 at the south end of Pearl St. A new railroad crossing will be installed to allow traffic to bypass S.R. 120 west and S.R. 15 south past their intersection and will use Kesko Drive to to Ponderoa Dr. and finally exit from Bloomingdale Dr. out to S.R. 15 south. In early September, work began to connect Pearl Street on the north to the road section across the new railroad tracks. Properties in the right-of-way on St. Joseph St. have been demolished and will be cleared away. The new alternate route will go down Pearl St. behind the Bristol Fire Station and will extend all the way to Bloomingdale Dr. out to S.R. 15 south. The intersection of S.R. 15 north and S.R. 120 west will be improved to link up with Pearl Street. At times during construction, traffic on S.R. 120 and 15 north as well as other streets will be affected. A red caution light will alert vehicles on Pearl Street behind Bristol Fire Station to a train on the railroad tracks. It is hoped this will help to alleviate truck traffic on Vistula St. (SR 120).
