This Week in Bristol Indiana - 12-30-2018

The two major projects in Bristol are well underway as the year ends. The alternate route from Pearl Street to a new railroad crossing at Pearl and St. Joseph Street has been built - running behind the Bristol Fire Station. The new rail crossing has been installed, but is not yet in operation. The route from State Road 15 North across State Road 120 East will probably not be begin until 2019 Spring weather returns. The new town municipal building which is an addition to the existing 1914 town hall is underway. The first step was to tear down the old fire station which was located along Apollo Street behind the town hall/police station. This was completed. The next step was to tear down the old police department section behind the town hall. This also has been completed. Ground for the new parking lot on Apollo Street was leveled. Then the section of Apollo St. from SR 120 to Elkhart Street has been closed. A new driveway will be made for Linda Powell's home on SR 120, but rest of the street will remain closed.

Just the Bristol Facts:
